***Non-Response to Amendment***

The reply filed on July 25, 2005 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant has election of claims 9, 11-15 and species of figures 1-3 is non-responsive for the reason that examiner has indicated figure 2 is a specie separate from figure 3 specie, consequently applicant need to select one specie only, not two. Further claims 11 and 12 depend from cancelled claim 10. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**

Applicant's traversal of the restriction filed 5/11/2005 on the grounds that it is not a serious burden on the examiner to perform a search even if the invention is independent and distinct is not persuasive. It is this examiner's view that it is a serious burden to search the article and the method claims. The search in the electronic arts for the method claims which the previous examiner did not perform is not required of the article claims. Further, the election of species is a series burden as well. The structures of the different species are different and requires different considerations and/or search. Applicant may argued that the species are obvious variants; however if examiner finds one specie unpatentable, then the other species will be deemed obvious base on applicant's arguments. To expedite prosecution, applicant is required to select one specie. As indicated in the previous Office action, if a generic claim is allowed, then all

Art Unit: 3632

species claims dependent from said allowable generic claim will be rejoined with the allowable generic claim. Consequently, the restriction is deemed proper.
